

## The benefits to you

- Practical and professional expertise
- Access to expert knowledge and a network of specialists
- Qualified and experienced people
- Assistance in grant funding
- Bespoke friendly service
- A genuine interest in the success of you and your business

Since 1990, Sam Hoste has held senior management and directorships for various companies with roles of geneticist and head of R&D. Quantech Solutions was formed in 2004 to provide thoughtful business strategy and supply chain innovation to the agri-food sector.

Recent projects have included the organisation of a large UK retailer's local food supply chain; management of RDPE grant applications and a collaborative project in the pig industry.

Assisting your business in finding and exploiting successful, sustainable and profitable business opportunities

We encourage companies and people to consider their whole supply chain, to share experiences and know how to explore and exploit business opportunities. We specialise in the agri-food sector and other rural businesses. We have particular experience in meat supply chains.

What we offer:

**Food producers and processors:**

- Whole supply chain thinking from farm to retailers
- Assistance in developing ideas into products or developing production goals into business success
- Assistance in product and process innovation within your business to exploit opportunities
- Help with achieving your goals through a well executed strategy

**Food supply chains, farm shops and regional food groups**

- Participatory workshops with suppliers to improve supply chain profitability for all
- Participatory workshops for like minded business owners to innovate, share ideas, build relationships and

knowledge to create sustainable and profitable supply chains

- Food supply chain research

**Food Retailers and processors**

- Supplier development through knowledge sharing
- Supply chain innovation through participatory methods and Appreciative Inquiry focussing on the positive strengths of individuals and companies
- Food supply chain research
